Darf die Bundeskanzlerin die Wahl eines Ministerpräsidenten kritisieren? Das Bundesverfassungsgericht verneint dies mit Verweis auf das Gebot politischer Neutralität. Es verkennt damit jedoch die inhärent politische Rolle von Regierungsmitgliedern. Diese sollen politisch gestalten – dies erfordert auch parteiübergreifende Kommunikation.

Diese Arbeit beschäftigt sich mit diesen Defiziten. Sie nimmt dabei insbesondere die Anwendung des Verfahrens in der Praxis in den Blick und beleuchtet seine Anwendung in den besonders umfangreichen Wirtschafts- und Steuerstrafverfahren.

Linguistics

This book addresses specialized translation, focusing in particular on the forms of translation that might prove most useful for making specialized language more comprehensible and accessible, namely intralingual and intersemiotic translation. The book offers strategies to assist academic and professional audiences.

The book shows that diversity in cognition plays a key role in linguistics encoding, event conceptualization, reception of music and general literacy. It provides new insights and fresh approaches to the discourse on diversity in and beyond cognition.

Media and Communication

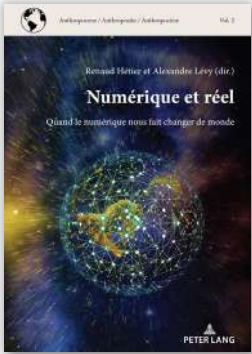

This book explores the model of the media system in ten post-communist countries to learn how media systems evolve in each country, under the influence of political institutions and external stakeholders. This research looks at how political, media, economic and social systems co-work or influence each other and how they affect each other.

Le numérique questionne notre rapport au réel. Notre corps disparaîtra-t-il ou est-il appelé à une transformation radicale dans une « augmentation » ? Pouvons-nous encore poser des limites, un cadre, respecter l'idée de frontières dans un contexte d'illimitation et de mondialisation ? Enfin quels sont les effets du distanciel sur nos besoins ?

The author, George A. Gonzalez, shows that plot – revolving around justice and injustice – often determines the artistic success and popularity of TV and film franchises. He argues that Start Trek is the most popular franchise in history because it puts the pursuit of justice, and therefore beauty, at the heart of its world.

This volume includes Felix Noeggerath's dissertation from 1916, published here for the first time in a reliable critical edition.

The book analyses the ideas of transhumanism and posthumanism from several philosophical perspectives and how they overlap with artistic expression. It explores the possible ontological, ethical, and social implications associated with the fulfilment of this vision. It analyses their influence on literary, visual, cinematic, and digital art.

The war in Ukraine has not only affected the political, economic, social, and cultural systems but also the education and schooling system. The full-scale assault of the Russian Federation on Ukrainian territory on 24 February 2022 disrupted the teaching and research systems. The necessity of finding scholarly answers to tough questions about the situation of the universities – their academic staff and students – during the war, the solidarity attitude of universities in foreign countries, and the status of Ukrainian Studies are the causes of preparing this publication. The value of this volume is that the authors of most of the articles are specialists and theorists of the subject, at the same time observers and witnesses of the events and processes described, often actively involved in them.

La presente monografía está destinada a reivindicar una figura poco conocida del panorama artístico español fuera de Cataluña: Ramon Calsina Baró (1901-1992), un pintor difícil de encuadrar, lo que no le impidió desarrollar una notable e influyente trayectoria. Para ello nos centramos en dos de sus aportaciones como ilustrador: por un lado, inspiradas en Don Quijote, las litografías publicadas por Osa Menor (1958) y las ilustraciones editadas por Nauta (1967) y, por otro, los dibujos basados en la obra literaria de Edgar A. Poe (dieciocho dibujos "preparatorios" y las viñetas definitivas publicadas por Nauta en 1971). Es esta la primera vez que se publican al completo y de manera conjunta las dos series de dibujos originales.

Centré sur six écrivaines francophones, les contributions rassemblées dans ce volume constatent la bonne santé de l'écriture-femme camerounaise. Ces discours au féminin, tissés de vécus et de mémoire collective, cristallisent les enjeux complexes de la femme noire dans le monde actuel.

La resistencia es inherente al poder y consustancial a la escritura. Bajo esta premisa, el presente volumen reúne más de una quincena de trabajos que atienden a los modos y formas en que la literatura contemporánea se enfrenta al poder.
